What do you think? Should we cancel the call and let NPDES know?

Subject: 404 telephone conference meeting

Kim came by and said that Peter may be caught up with another meeting scheduled at the same time as the 404 meeting on Friday to talk about senate bill legislation I believe associated with Section 402. Kim and Amy wanted to know if you had anything pressing for our 404 meeting and if so, we should reschedule the 404 meeting. If not, we will talk at next month's meeting. The Aquila public hearing is not till the 23rd so there is nothing to talk about there. Please let me know. Thanks Melanie.
